# SHORE

Empower students as the agents of change

#EU4Ocean #EUBlueSchools #Youth4Ocean

Little waves  
make big oceans

Funded by  
the European Union

Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Commission. Neither the European Union nor the granting authority can be held responsible for them.

## Our mission

SHORE's primary mission is to **enhance Ocean Literacy** by increasing citizen's knowledge about oceans and rivers. The project engages with students, teachers and schools across five distinct regions: Baltic Sea, Black Sea, Mediterranean Sea, Danube River, and Rhine River.

Through its Country Hubs, SHORE offers **guidance to educators for the implementation of blue projects** in schools and provides students with the right skills and knowledge to become eco-citizens.

## What do we offer?

A **Digital platform** to ensure the visibility of SHORE internationally and support the schools in the implementation of their projects.

A **Submission platform** dedicated to the three open-calls.

**The Mission Ocean Helix**, a virtual network gathering experts on ocean literacy from academia and education.

**Training materials** for educator to increase their knowledge about sustainable and blue education.

**Blue curricula** toolkits and modules through open schooling methodologies.

## Open calls for students and schools projects

SHORE will provide grants to **100 school projects** on blue sustainability in **3 Open Calls** periods, offering up to **10,000 euros** per grant.

## SHORE supports

### Mission Ocean - Restore our Ocean and Waters

SHORE is dedicated to implementing the **Mission Ocean's objectives** and help connect citizens, local communities, and schools through education and training activities and support the delivery of the Mission by 2030.

### Network of European Blue Schools

SHORE offers guidance to schools to apply for the **Blue Schools Network**, an initiative of the European Ocean Coalition (EU4Ocean) that aims to contribute to ocean literacy in education.
